

# TOPICS for DISCUSSION 2

**Longer term preservation of data and data products?**

**Copernicus/DIAS:  
How can NextGEOSS contribute to the co-creation of the ecosystem of platforms?**

**How are we going to communicate and engage with the communities of practice?**

**What role can NextGEOSS play as a short term project, how can sustainability be secured?**

**Can we use portal widgets with the NextGEOSS data hub? (Coordination between portals)?**

**Semantics - communications between or combining data from different disciplines?**
